2% EXCELLENCE IN BLACK ARTISTRY (LRC EXHIBITION)

February 5 - April 22, 2026

2% calls attention to the scarcity of Black representation in Orange County and in the art world more broadly. While acknowledging this structural absence, the exhibition honors artists whose work asserts presence, depth, and influence beyond their numbers. The title marks both a reality and an invitation—to look more closely, to recognize what is too often overlooked, and to expand the space in which these voices can be seen.

Born and raised in Denmark, Klubien emerged in the international animation world during one of the most important creative eras in the history of Walt Disney Animation Studios and Pixar Animation Studios. His drawings, storyboards, and character explorations helped form the invisible architecture beneath many of the films that defined a generation.
